EXPERIENCE

Software Engineer II – Black Duck (Synopsys)

May 2025 – Present

Software Risk Manager (SRM) Team

Bengaluru, India

- Engineered the enhanced **GitHub Advanced Connector** using GitHub App authentication, PEM private key handling, automatic token refresh, and repository selection APIs.
- Extended SRM's Trivy integration by adding Kubernetes manifest scanning, enabling end-to-end vulnerability parsing and expanding scan coverage by **30%**.
- Built the **Qualys scanVersion selector REST APIs** with timestamp mapping, enabling precise historical scan retrieval and reducing mis-scans by **25%**.
- Added **Legacy** and **Clean Code** scanning modes; optimized issue categorization logic using impact arrays, boosting processing efficiency by **30%**.
- Delivered the SRM **Dashboard PDF Export** feature using Playwright; resolved Docker/K8s deployment failures by fixing binary dependencies and optimizing Docker images.
- Tech Stack:** Java, Spring Boot, Microservices, Docker, Kubernetes, MySQL

Software Engineer – IRA & IRA 2.0 (Tata Consultancy Services)

June 2023 – May 2025

Connected Car Platform

Hyderabad, India

- Built backend features for IRA & IRA 2.0, Tata Motors' **connected car application**, enabling trip tracking, vehicle insights, driving scores, charging data, and health monitoring at **10M+ daily requests**.
- Reduced backend latency by **70%** using **Redis caching** for frequently accessed trip and health report data.
- Integrated services across **Telematics (TD)**, **Connected Vehicle Platform (CVP)**, and **CRM**, ensuring seamless data flow between vehicle, trip, and service modules.
- Tech Stack:** Java, Spring Boot, Spring Security, Microservices, **Redis**, MySQL

PERSONAL PROJECTS

E-commerce Backend Microservice Architecture - Source Code

April 2024

- Architected a scalable e-commerce microservices platform with User, Order, Cart, Product, and Inventory services, improving deployment efficiency by **40%** and reducing maintenance overhead by **25%**.
- Optimized backend performance using MySQL **indexing**, pagination, and **Redis caching**, reducing query execution time by **50%** and improving API response time by **60%**.
- Tech Stack:** Java, Spring Boot, Spring Security, Microservices, Redis, MySQL, Eureka Server

ACHIEVEMENTS & CERTIFICATIONS

- Solved **1000+ DSA problems** on **LeetCode** and **GeeksforGeeks** - [Link](#)
- Ranked **700 (Round 1)** and **1347 (Round 2)** globally in **TCS CodeVita**.
- Microservices with Spring Boot, Docker, and Kubernetes** – [Link](#)

EDUCATION

Gayatri Vidya Parishad College of Engineering

B.Tech - CGPA - 8.61

June 2019 – April 2023

Visakhapatnam, India
